

"If, while you are eating, you do not have a person next to you who eats with equal taste, then the pleasure of eating is somewhat blurred, diminished."

The Convivial Menu embodies the Evolution of the idea of Menu, with the ritual of dinner as a rediscovery, intended like a banquet, a feast.

We disconnect from canons of conventional service, to concentrate on an elaborated journey for sharing and an informal moment.

A Menu which varies in function of seasonality and an accurate research on preparations, reaching here and there the Sicilian and international tradition.

All of this to make you rediscover the magic behind the sensuality of moves for a poetic dinner.

Some Foods Are Subjected, According to Regulation (EC 853/04), to Temperature Reduction and then Defrosted. Information about the presence of substances or products that cause allergies is available by contacting the service staff.
